

Introduction to Vision and Robotics

Vision Practical: Coin Counter

Dylan Angus, Matthew Martin

October 16, 2016

1 Introduction

Put content inside of these sections. Can insert lists, subsections, figures/images, code, pretty much anything.

New paragraph automatically indents. Good Latex editors are TeXstudio (I use this), TexMaker, ...

1. Ordered list
2. item two

2 Background Segmentation

code can go inside these tags `\begin{verbatim} \end{verbatim}` (no space thou
